

My arm  
is about  
are well  
I felt a  
good deal  
afraid  
that you  
had took off  
your tick  
that made  
me rather  
sick & very  
hope it won't  
hurt

night and the old sheep ranch  
and Elkhorn peak were white  
with snow, which is not all  
gone. Charlie has gone  
down to the city for a day or  
two. He may be out at University  
before he returns, but of course  
that is uncertain. Did you send  
Berkeleyans as you spoke of  
doing. I have not heard of  
them. However I suppose they  
would acknowledge them to you.  
The Berkeley Presb. Chh. have in view  
a Dr. Charles from the East, supposed  
to be a strong man. We have paid  
Mrs. Alexander up to Nov. the time  
she quit preaching and shall decide  
what we can fix him besides.  
Mrs. Lynch read us last Sabbath a  
sermon on Unmercifulness in influence

the principal thoughts, that  
unmercifulness  
influence  
was deadly.  
Dear Millie  
Very good  
Dr. Bushnell. Very good  
by Dr. Bushnell. Very good  
I suppose you have  
remembered that this is your birth  
day. I too have remembered it  
and send a little package  
to assure you that we think  
about you. I hope the contents  
will please you. Dear Child  
if my wishes could secure it  
for you, the year upon which  
you are entering should be  
brighter than some of the  
past. You have been such a  
comfort to me, that it seems  
as if you must be blessed  
for it, and at least as if the  
thought of it would be a  
comfort to you. These  
birthdays bring sad thoughts

Piles of his  
April Patterson  
estate had  
arrived,  
I hear.  
Berkeley  
it is a dear.

15. 1878

I would have done  
as well as rubbed  
before sending  
as loving ones, there  
are some that can only  
be remembered silently,  
but our loved ones would  
be the first to wish us to  
open our hearts to all the love  
that is left to us.

A letter from Joe informed  
me that you were over last  
Sat. I suppose you took  
your tile over to be looked.  
I am very impatient to know  
how it comes out. Thanks for  
the Beson. I like to see the  
Univinity papers. Glad Prof.  
and Mrs. Le Conte have at least  
done the proper thing and called.  
It would have been more to  
their credit had they done so  
sooner. Mr. Sill's idea that  
Howell's needs balancing up,  
or would he heelsteved up

by writing this  
by seeing you in Scribner  
is slightly derogatory to  
Boston is it not? I thought  
a Bostonian was sufficient  
unto himself. What Charly Head  
might feel about the matter  
is, it seems to me a matter of  
absolute indifference.  
Ah. Suoh came in last Sat, eve  
and struck for higher wages.  
I declined. Sunday morning  
came Ah Ling and then  
Ah Ty. I said no if he chose  
to stay for \$15, all right  
if not he could go. He said  
he would go. I said all right.  
By and by came Ah Ty and  
said if I wanted him to stay  
he would stay. So that ended  
it.
